SUMMARY

UX/UI and product designer with 2+ years crafting end-to-end digital products across web, mobile, and desktop, backed by hands-on full-stack development. I turn user research into clear information architecture and high-fidelity Figma prototypes. Having shipped production code myself, I collaborate closely with developers to bring designs to life exactly as intended.

EXPERIENCE

UI/UX Designer

Core Software Integrated | Sept 2021 – Jul 2023 | Nepal

- Designed and shipped interactive interfaces across Android, web, Windows, and iOS, partnering with product and engineering teams to deliver consistent, polished experiences.
- Led user research, interviews, and usability testing, translating findings into design decisions that shaped product direction.
- Produced personas, journey maps, information architecture, wireframes, and high-fidelity Figma prototypes across multiple product lines.
- Built and maintained a scalable design system, standardizing typography, components, and visual hierarchy to keep products visually consistent.
- Delivered annotated specs and assets in Figma, InVision, and Sketch, working closely with developers to ensure designs shipped exactly as intended.

UX Intern

Leapfrog Technology | Jun 2021 – Aug 2021 | Kathmandu, Nepal

- Applied design-thinking methods to frame problems and shape user-centric solutions.
- Ran primary and secondary research—user interviews and competitive analysis—to ground design decisions in evidence.
- Designed user flows, information architecture, wireframes, and high-fidelity prototypes.
- Presented an end-to-end UX capstone spanning research, IA, and interaction design.

Full Stack Developer (Co-op)

Banh Mi & Bites | Jan 2025 – Apr 2025 | Strathroy, ON

- Translated UI designs into responsive, pixel-perfect React.js interfaces with Tailwind CSS, owning the full design-to-code handoff.
- Built supporting RESTful APIs with Node.js/Express and MongoDB for product, order, and auth flows.
- Partnered with stakeholders to align product features with user needs and business goals.

PROJECTS

Cloud-Based Web App Deployment

Lambton College

- Deployed a Node.js/MongoDB web app to AWS using EC2 and S3.
- Configured security groups, environment variables, and CLI-based deployment.

SKILLS

Design: UI/UX design principles, user research, usability testing, information architecture, journey maps, wireframing, prototyping, design systems, interaction design

Tools: Figma, InVision, Sketch, Miro, Whimsical

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, responsive design

Also: Node.js, Express.js, REST APIs, MongoDB, MySQL, Git, AWS

EDUCATION

Postgraduate, Full Stack Software Development

Lambton College | Sept 2023 – Apr 2025 | Sarnia, ON

B.E. in Computer Engineering

Kathmandu Engineering College | Nov 2016 – Apr 2021 | Kathmandu, Nepal
